The mild English manners of the village of darkness beneath the heart of oak. Special Projects. About the Author. There are recollections from the author, from soiling himself at the age of 17. He sometimes seems a bit sentimental and wishy-washy but that's because he's being really brave actually in occasionally using himself as a test-subject and investigating the way that he remembers personal things that matter to. The explanations of the science Pieces Of Light key concepts weren't constructed in a way that I really felt I was fully learning or understanding anything - maybe I'm not that bright but then this isn't intended as an academic text per se, and the tone of the personal anecdotes came across as smug or Pieces Of Light to the point where I couldn't get invested in them to learn things "by accident" by engaging with the narrative.

Adam Thorpe was born in Paris in 1947 and lived in the same house for 18 years. Far better written than most books of this type, it makes a lot of slickly packaged popular neuroscience offerings pale by

comparison. This is both a serious novel and a great read.
