According to Paynethe Superego achieves this regulation through fear of punishment and anxiety, and the anticipation of guilt. Detandt, S.

Berns, McClure, Pagnoni, Montague found certain areas of the brain to be responsible for Biophilia and Biophobia While ecopsychology in its classic form is in danger of creating a new mysticism or a new religion, there is much of value within the tradition so we shall see what symbioses can occur in this ecology of ideas.
